Divinity	DIV					● NE
Glacier	GLR					● NE

● - Standard Price (no up-charge). Please note for MDF door styles, standard pricing only applies to door style specific items.

† - Not available in Towne door style

NE Natural Ends

All finishes notated "NE Natural Ends" will have as indicated natural maple wood grain laminate end panels (does not match cabinet front). For example, order a finished skin to field install or Matching Finished End.

For finishes not notated NE, the standard end panels is ½" complementary wood grain/white/linen laminated furniture board end panels with edge banding.

Painted Medium Density Fiberboard (MDF) doors will display a color variance from the painted maple face frames, corbels, mouldings and other accessory items made with solid wood or maple plywood used in the same finish due to the MDF substrate material. This is not considered a defect and is not covered under warranty.

Finish note: Due to sanding procedures and finish applications, finishes will not match the Wellborn products.

The Home Concepts Series has a machine sanded finishing process and does not include the detailed hand sanding technique featured in the Premier Series. Therefore, Wellborn Cabinet, Inc. does not recommend designs combining these series. Any claims arising from or related to cabinet finish matching in such blended or mixed designs is specifically and expressly not covered under any warranty provision.

DETERMINING ORDERING CODES

To determine the ordering code, add the series code, door style code, species code and finish code.
For example: Hampton Square Oak Light

Series Code	Door Style Code	Species Code	Finish Code	Series Ordering Code
HOM +	HPS +	OAK +	LGT =	HOM HPS OAK LGT
